

How to cope with earthquakes and tsunamis at Japan for foreigners.

In the case of a tsunami, go to a nearby school or high place after the earthquake has stopped shaking.

What to bring in case of disaster

Emergency bags can be purchased online

If a flood occurs, evacuate to a high place of a large building.

If there is no high ground near the tsunami, it will be directed to an evacuation building in the event of an earthquake.

You can escape from where there is this. Emergency exit mark. So escape from there.

There are marks like this all over town. There is no telling when an earthquake or tsunami will occur. Therefore, it is very convenient to know such a mark in advance.
